

POLICY FOR EDUCATIONAL VISITS

(Applies to the whole school including the Early Years Foundation Stage)

Mission Statement

At The Granville we encourage children to develop into caring, self-reliant and well educated children who have the confidence to face future challenges. This is achieved by high quality teaching, rich experiences and pastoral care. We aim to develop and realise a child's full potential through attention to individual needs and an emphasis on children discovering that learning is fun. We demonstrate regard to DFE Guidance Health and Safety Advice on Legal Duties and Powers for Local Authorities, Head Teachers, Staff and Governing Bodies

When children leave The Granville we aim that they should have had a unique experience of education which will include various educational visits off site. These are regarded as an important part of the curriculum as they enable the children to:

- Develop latent talents, abilities and interests which can be motivational and have live long relevance;
- Apply a different range of skills than those used in a classroom;
- Enable, support and complement the curriculum;
- Assess and manage risks;
- Encourage the children to have a greater understanding of the world around them.

Objectives

This policy offers guidelines to staff when organising external visits to ensure the safety of our children. This includes specific procedures and risk assessments which will be carried out for all visits. This should ensure that:

- visits are well planned and significant risks are identified and managed;
- there are contingency plans in place for changes in circumstances during a visit that are reasonably foreseeable;
- those in charge of visits have the necessary competence to manage situations appropriately;
- the requirements of the Early Years Foundation Stages (EYFS) Checklist and Monitoring Reference for Inspectors are met if EYFS pupils are involved in the visit.

Frequency of Visits

- In the Early Years visits should occur when they are suitable for the age range and their curriculum. This may be a maximum of one per term.
- In KS1 and Y3 classes are encouraged to go on a minimum of one per term.
- In Y4, 5 and 6 termly visits are usually made. There is also the opportunity to go on short residential visits.

Pre Visits

In the first instance this should be discussed and agreed by the Headmistress. Once this has been agreed the member of staff instigating the visit is responsible for booking the venue and transport with the help of the school secretary. All trips must be relevant and appropriate to the age group and the subjects studied in the classroom.

It is essential that pre-visits take place in order to undertake a full and comprehensive risk assessment. If the venue is used regularly risks should be assessed from time to time.

When undertaking risk assessments the following variables must be taken into consideration:

- The number, age, sex, ability and general behaviour of the children involved;
- Any previous experience of off site visits;
- The timing of the visit;
- Seasonal weather variants;
- Travel arrangements;
- Potential hazards at the venue;
- The number of staff required and their experience;
- The nature of the activities;
- Emergency procedures;
- The needs of the children with either learning difficulties or medical needs;
- Coping with uncooperative children;
- The essential needs of monitoring risks throughout the visit.

Visits Planning

Each visit will have its own risk assessment. When a visit is repeated a review of the risk assessment must take place.

The teacher in charge will endeavour to fix visit dates well in advance.

Visits where the following are applicable should ideally be organised a term in advance:

- involves additional cost for parents;
- needs to be booked in advance;
- needs transport to be arranged;
- Details need to be sent out to parents to indicate the cost (usually via the school office) ;
- consult the office about any special and medical needs of pupils, obtaining specialist advice where necessary;
- inform the school office where tickets and transport need to be arranged;
- ask the Bursar to carry out DBS checks and references for any volunteers that are to be on the visit.

One month in advance:

- parental consent forms should be sent out with a specified return date if the trip is not covered by the trip form signed at the beginning of the year;
- Costs are added to each child's bill;
- book the travelling first aid kit from the office;
- book a mobile phone from the office;
- finalise all bookings;
- finalise the risk assessment and get it approved by the EVC;
- advise parents of the need for special clothing, sun cream, hats, waterproof clothing, wellington boots etc.

Two weeks in advance:

- chase any remaining consent forms from parents, reminding them that their child cannot participate if it is not received within 3 days of intended departure;

- meet with other staff and volunteers taking part in the visit to discuss responsibilities, risk assessment and emergency arrangements ;
- prepare a pack for the accompanying staff, EVC, and other relevant parties, which will consist of:
 - the itinerary, with all addresses of locations during the trip, phone numbers etc ;
 - name of the Teacher in charge;
 - the school mobile numbers on which staff can be contacted;
 - a list of pupils and any medical conditions ;
 - copies of travel documents;
 - emergency contact numbers for the EVC, designated member of staff on-call;
 - copy of the trip risk assessment;
 - location of nearest hospital;
 - bottled water if necessary.

Day prior to departure / day of departure:

- remind the children of the purpose of the trip and expected standards of behaviour;
- give information packs out;
- collect the travelling first aid kit and check contents;
- collect school mobile phone;
- collect school visit wrist bands;
- collect bottled water .

During the visit:

Primary responsibility lies with the teacher in charge, who can amend arrangements or cancel the visit if appropriate. They may delegate tasks if necessary, including:

- carrying out and recording of head counts of children, leaving school, getting on / off transport, entering or leaving a location etc;
- checking that pupils wear seat belts;
- enforcing expected standards of behaviour;
- keeping account of expenditure;
- recording accidents and near misses;
- checking pupil ratio.

Risk Assessments

These should be carried out for every visit with safety being the prime consideration. Every risk assessment must be handed to the Headmistress as soon as possible.

Health and Safety at Work Regulations require employers to assess the risks of activities, introduce measures to control those risks and tell their employees about these measures. Risk assessments provide the fundamental intelligence on the hazards, risks and precautions for carrying out an activity. Most trips will have generic assessments that will be added to, to include the site specific issues and the dynamic issues of the time.

There are three types of Risk Assessment:

- Generic risk assessment – the risks inherent in the activity
- Site-specific risk assessment – the risks associated with the site
- Dynamic risk assessment – the risks at the time

When completing a risk assessment you should regard the risk assessment as a routine procedure in your planning of a trip out of school.

A risk assessment has three objectives:

- Potential safety problems are identified and understood;
- Checking that existing control measures (i.e. the school's standard procedures) are adequate;
- If they are not, to identify what additional measures would reduce the risks.

The degree of detail and complexity in a risk assessment will depend on the nature of the group/venue/activity. The information and procedures laid out in this policy and the appendix should be regarded as the school's standard "control measures". For many trips, following these will be sufficient to ensure a well-planned and safe trip. For more complex trips, residential trips, and any involving potentially hazardous activities, a risk assessment must show that the broader risks have been understood and measures have been implemented to reduce them.

Risk assessment is an on-going business and should continue throughout the trip as the group leader and staff respond to situations and incidents during the course of the visit.

Risk Assessment Forms

Risk Assessment Forms are in the folder 'Residential and Day Trip Forms' in the Staff drive.

Permission Slips

At the beginning of each academic year parents will be asked to sign a permission slip for all of the normal outings which take place, excluding residential trips. These must be outlined on the slip. Any child who does not return the slip will be unable to go on the visit. Parents have the option of signing separate forms for each trip. These forms are generated from the office.

Residential: separate permission slips must be sent out and returned at the appropriate time.

Information for planned visits

The school's calendar of events lists visits that are due to take place over the coming term but sometimes visits are arranged after printing, in which case parents will be informed by letter or email in good time. The correspondence will give information about the visit if appropriate, and its cost, and the items that will be required.

Procedures for planning visit

- Transport is booked through the secretary using the same coach company.
- Pupil health plans should be consulted and any medical issues noted.
- Letters giving parents the details of the visit should be sent out in good time. The letter should include accurate details, time, place, duration, cost, and anything the child needs to bring.
- Teachers must ensure that their lessons and duties are covered and that work is set.
- Dates must be put in the school diary and on the minutes of the staff meeting to enable peripatetic staff to access the information.
- The kitchen should be informed.

Preparing Pupils

Providing information and guidance to pupils is an important part of preparing for a school visit. Pupils should have a clear understanding about what is expected of them and what the visit will entail. Pupils must understand what standard of behaviour is expected and why rules must be followed. Lack of control and discipline can be a major contributory factor when accidents occur. Pupils should also be told about any potential dangers and how they should act to ensure their own and other's safety. Pupils should be involved in planning, implementing and evaluating their own curricular work. They should have opportunities to take different roles within an activity, this could include considering any health and safety issues.

Pupils with special educational and medical needs

The Headmistress will not exclude pupils with special educational or medical needs from school visits. Every effort will be made to support them whilst maintaining the safety of everyone on the visit. Special attention will be given to appropriate supervision ratios and additional safety measures may need to be addressed at the planning stage.

Group Leader

The group leader should be competent to monitor the risks throughout the visit. Nobody should lead adventure activities unless they have been assessed as competent, understand the full range of hazards and risks and can implement rescue and emergency procedures.

Leaders must be competent in dynamic risk assessment for the activity, so that they can continuously evaluate the implications of changing conditions. Dynamic risk assessments will need to take account of any generic and site-specific risk assessments and good practice. It is essential that prospective leaders are familiar with all relevant guidelines and seek expert advice if necessary.

Leaders should make sure that they have sufficient "local knowledge" to include awareness of railway lines, rivers etc. It is extremely important to have the best available information to support generic, site specific and dynamic risk assessment.

Leaders must ensure that risk assessments should be fit for the purpose. The most important thing is to identify the right precautions to control the risks. Pupils should be involved in some practical risk assessment and decision-making to help them become "risk aware".

Leaders should ensure staffing is not only decided by a simple numeric calculation of the ratio of children to adults, but by taking account of matters identified in the risk assessment.

Leaders using Outdoor Education Centres (OECs) should clarify roles and liaise with the OEC to ensure that appropriate risk assessments are carried out for all aspects of the visit. Leaders need an alternative plan to use if necessary.

A deputy leader should be appointed.

Ratios

Staff:Pupil ratios recommend by the DfE for offsite activities are 1:8 although a lower ratio is often adopted. Ratios must be adhered to at all times. At the Granville we work on the following ratios:

Staff/Children ratio

<u>Year</u>	<u>Staff</u>	<u>Children</u>
N-T	1	2/3
R	1	4/5
1-3	1	6
4-6	1	10-15

This could vary according to the activity and venue. There is always at least one teacher present, and one will be designated the Teacher in Charge. Teaching Assistants will normally be present and sometimes so will parents (see below).

Accompanying Adults

- At least one accompanying adult should hold a valid first aid qualification. For Early Years they must have a paediatric first aid qualification.
- Adult helpers will attend a briefing with the Visit Leader before the visit when they will sign the Risk Assessment and be given a written list of the children in their group. Those helpers who are not DBS checked will not be alone with children and must be guided by school staff at all times. Any helper must be informed of the safety procedures in place. They should have a group list, containing details of any medical issues. They should be prepared to help with head counts.

Procedures during the visit

- Children must be given wrist bands giving school details and the number of the school mobile;
- The Group Leader must carry the school mobile at all times;
- Any medication required by the children should be carried by the trained first aider;
- If travelling by coach sick bags should be taken;
- All adults must have a list of everyone involved in the visit, to include any medical needs;
- If the group is split each adult should have a list of their group and always be in charge of the same children'
- Headcounts must be taken regularly;
- The Group Leader should identify rendezvous points and explain to the children what they should do if they become separated from the group. Where possible, officials should be pointed out at the beginning of the visit;
- In the event of an accident an ambulance must be called before the school number;
- All belongings must be checked when leaving venues and any transport used;
- Throughout any visit children are expected to behave sensibly and be polite;
- Receipts must be obtained for any purchases which require reimbursement.

Insurance

- The school has Employers Liability Insurance of £10,000,000 and Public Liability Insurance of £25,000,000.
- Travel involving staff using their own cars is discouraged. Where this is permitted, however, cover is provided through the schools "occasional business use" motor policy. EYFS children can only be transported in private cars that are fitted with special child seats.
- The Group Leader, with advice from the Bursar, is responsible for ensuring that insurance arrangements are adequate for the trip.
- The Granville Insurance Policy is sufficient for day trips judged to be of reasonable risk by the Group Leader. Specific insurance for adventurous activities may be offered by the provider; the Group Leader is to seek advice from the Bursar.
- For trips abroad the Group Leader is to arrange suitable insurance, with advice from the Bursar.
- The costs of additional insurance are to be incorporated into that for the trip.

Guidelines for different modes of transport:

Walking

- Children should walk in pairs with an adult at the front and back.
- They should always walk on the inside of the pavement in an orderly and controlled manner, only talking to their partner.
- The pace should be slow enough for the children to keep in a group.
- They should be reminded to be aware of the needs of other people using the pavement.
- When ***crossing a road*** everyone should stop and wait for the group to catch up, even if the road is clear. The children should be silent. Adults must supervise the crossing by standing in the road and, if necessary, stop the traffic. After crossing the front pair should wait for the rest of the group to catch up and for the leading teacher.

Coach/Minibus

- ***Seat belts must be worn throughout the journey.***
- Children should be seated throughout the journey.
- They should behave properly so as not to distract the driver.
- On longer journeys children who are liable to be sick must bring any necessary pills and a written letter from their parent.
- We adhere to the **Minibus Safety: A Code of Practice August 2015** which can be found at www.rosipa.com

Guidelines for different venues:

Swimming Pools

All pools should have:

- A sufficient number of qualified staff should be in attendance at all times. Where a life guard is not in attendance the Group Leader must have the relevant lifesaving award.
- Clean water which is at an appropriate temperature.
- Clear signage to reinforce safety features and the behaviour expected.
- A resuscitator, first aid and rescue equipment easily available for use by a trained person.
- Appropriate changing facilities which are clean and hygienic with safe storage for belongings.
- Suitable facilities for the disabled.

Farm Visits

Visits are not recommended due to problems in local farms with EColi. However if, after careful consideration, **farm visits** do take place the risk of infection can be minimised by basic hygiene precautions.

Group leaders should check the provision at the farm to ensure:

- eating areas are separate from those where there is any contact with animals;
- there are adequate clean and well maintained washing facilities;
- there is clear information for visitors on the risks and precautions to take;
- there is adequate trained adult supervision wherever children can come into contact with animals and need to wash their hands;
- All children wash their hands thoroughly immediately after touching animals and before any eating or drinking;
- Shoes are cleaned and then hands are washed on leaving the farm.

Never let pupils:

- place their faces against the animals
- put their hands in their own mouths after touching or feeding the animals
- eat or drink while going round the farm
- eat or drink until they have washed their hand
- sample any animal feed
- drink from farm taps (other than in designated public drinking facilities)
- touch animal droppings (if they do then wash and dry hands)
- ride on tractors or other machines
- play in the farm area or in other areas that are out of bounds such as grain storage tanks, slurry pits, etc

Residential Trips

- Appropriate staff ratios must be maintained throughout any residential visit.
- A floor plan should be obtained in advance to ensure that the children and teachers have adjoining rooms. Where possible rooms should not be on the ground floor.
- Security should be enforced 24 hours per day.
- Locks on doors should work in group rooms, but the staff must have access at all times.
- Children should never be in the sole care of adults who have not had a recent CRB.
- Everyone should be made aware of the layout of the accommodation, its fire precautions/exits, its regulations and routines, and key personnel.
- The fire alarm must be audible throughout the accommodation.
- A fire drill should take place as soon as possible after arrival.
- There should be appropriate safe heating, ventilation and lighting.
- Balconies are out of bounds.
- There should be adequate storage space.
- Adequate provision should be available for children who fall sick or have special needs.
- Recreational facilities should be close by.

Trips Abroad

- There is to be one teacher or other adult supervisor approved by the Head for every 10 pupils, unless following Risk Assessment the Group Leader determines that more supervisors are needed.
- Accommodation on overseas trips is to be in hotels or similar; host families should not be used.
- The Group Leader is to obtain information on any diseases or other health risks in the area in which travelling and any preventive actions necessary.
- It is advisable to have a teacher/contact at home with a valid passport, who can go to the area being visited to provide support to the group in the event of an emergency.
- If a group passport is not being used, the Group Leader must make sure that all pupils have an in date passport. This must be valid for 6 months after return if travelling outside the EU and for some countries within the EU.
- Group Leaders must know the location of the nearest British Consulate.

Emergency Procedures

Teachers in charge have a duty of care to ensure that their children are safe and healthy. They also have a common law duty to act as a reasonably prudent parent would. In extreme emergencies they should not hesitate in taking lifesaving actions. Staff in charge of pupils act "in loco parentis". This means that they "have a duty under common law to take care of pupils in the same way that a prudent parent would do". The School as employer of the staff will support them in the unlikely event of an accident occurring, provided they have exercised reasonable care and followed school guidelines.

If a pupil has a minor accident or becomes ill, the teacher in charge, or another member of staff, will phone the school office who will ring the parents' emergency contact number and arrange for the child to be collected. If contact can't be made, the child will be taken to the local hospital or if a minor event, to the school office. A member of staff will remain with the child until a parent or carer arrives.

Emergency procedures

In the event of a serious accident resulting in the death or injury of one or more of the pupils and staff, the Teacher in charge first priority is to summon the emergency services and to arrange for medical attention for the injured party. One of the accompanying members of staff should accompany the injured pupil(s) to hospital and remain until a parent arrives.

After ensuring that the rest of the group are safe and looked after, the Teacher in charge will:

- inform the EVC of what had happened;
- where the full facts have not yet emerged, say so and ensure that follow-up communications with the Headmistress (EVC) are maintained;
- arrange for the school's insurers to be contacted as quickly as possible;
- keep a full record of the incident, the injuries and of the actions taken.

Where possible, communication with the media should be left to the Head. The teacher in charge will refer the media to the school. If comment is unavoidable, it should be factual, calm and no attempt should be made to cover gaps in knowledge.

In the event of an accident the following are priorities:

- Assess the situation;
- Safeguard the uninjured members of the group;
- Attend the casualty;
- Inform the appropriate emergency services;
- Inform the school and contact home as soon as practicable;
- Ensure that a teacher accompanies the casualty to hospital, leaving the rest of the group supervised and able to return to school;
- Ascertain telephone numbers for any future calls;
- Write down any relevant facts and witness details and preserve vital evidence;
- Keep a written account of all events, times and contacts after the incident;
- Complete the accident report form as soon as possible;
- No one should discuss the legal liabilities with any other parties.

Missing Child

In the event that a child goes missing we follow our Lost Child and Missing Child policy

Safety

Safety is of paramount importance. We expect parents to support the school in ensuring that their child follows the instructions given either by a member of staff, helper, or by a qualified instructor, and uses the appropriate equipment safely and as designated. We reserve the right to send any pupil home early at their parents' expense, if they decline to follow the safety instructions or adhere to the school's behaviour code.

Delayed return

If the return from a visit is delayed, the teacher in charge will phone the school office and EVC. The staff in the school office will send out a message via Clarion Call to all the parents on their contact numbers to alert them to the delay and the revised time of arrival.

On Return, the Teacher in charge will:

- provide the EVC with an evaluation on the visit;
- return all school property (together with a report of any lost or damaged property).

Evaluation

After the trip an evaluation of the outing should be undertaken by the staff and pupils. The evaluation should be used to inform staff of the outcomes of the trip and to help plan future outings.
